Register a free business account Please try your search again later. And now, it's designed to let you enjoy the experience more easily than ever before. Engineered with exclusive Bose Unify technology, this system uses easy-to-follow

onscreen messages to guide you through the setup process. It even verifies when you've made the correct connections. Enjoy up to 6 HD video and audio sources such as your Blu-ray Disc player, cable box and gaming system. And now, it's designed to let you enjoy the experience more easily than ever before. Simplicity of setup and programming through the Unify Intelligent Integration System and LCD remote. Easy to Set Up. Easy to Use. The Lifestyle V35 system features the new Unify Intelligent Integration System to walk you through system setup, step by step. As you're attaching components to the control console, the system recommends the best connectors via onscreen messages. It even confirms that the connection was made properly. <http://freshandgleam.com/userfiles/community-mental-health-rehabilitative-services-manual-virginia.xml>

Each connected device is automatically added to the source menu accessed on your TV screen. No more toggling through video inputs to find the right source. This makes it easy and intuitive for anyone to use the Unify system. Unify technology also simplifies programming your Bose remote to control your Lifestyle system and most anything attached to it. During setup, the Unify system references an internal database to identify each connected component, and automatically teaches the Bose remote to control it. And Once You're Set Up. They produce compelling sound you'd expect from speakers many times their size. Exclusive technology in the module helps provide the emotional intensity you feel at the theater or in a concert hall. Even hidden out of sight, its impact can't be missed. Sound Designed for Your Room Your room is unique, with size, shape, textures and other elements affecting the sound you hear. In addition, built-in Bose link technology can distribute the home theater system's audio to as many as four additional areas. Add compatible Bose products to enjoy music almost anywhere, even outdoors. Key Features Quality multi-speaker Bose system 5-speaker surround sound system including 4 jewel cube speakers, designed for use with your home entertainment components. Unify intelligent integration system uses onscreen navigation to simplify system setup and everyday use. This proprietary technology walks you through setup, showing the right inputs and best connection options, and even verifies you've done it correctly. Clear, onscreen menus provide all the information you need for your connected sources. ADAPTiQ audio calibration system provides greater freedom of speaker placement. It analyzes the way your room's dimensions and other variables affect sound, then automatically adjusts the sound of your Lifestyle system to the acoustics of your room. Up to 6 HD sources, including 4 HDMI and 2 audio HD sources. Works on radio frequency to operate through walls and floors.

It charges your iPod while docked, and your Bose remote can control your iPod content. You can also play its video content on your HDTV. Acoustimass module works in concert with the small speakers to deliver a fuller range of theater sound and effects. The patented Bose design produces low frequencies for all channels with no audible distortion. Automatic video upscaling ensures movies and sports use the highest resolution capabilities of your display up to 1080p over HDMI. Amazon calculates a product's star ratings based on a machine learned model instead of a raw data average. The model takes into account factors including the age of a rating, whether the ratings are from verified purchasers, and factors that establish reviewer trustworthiness. Please try again later. Abbas Sadraee 5.0 out of 5 stars This is my first experience with Bose and I should say the product is amazing with the very small foot print and installation went so easy thanks to the accurate and complete user friendly manual. In terms of sound you can't believe what you hear of these tiny in compare to my previous humongous tower speaker of course little speakers!!! They are unbelievably crisp and sharp and I recommend them for both music and movie. I read many negative ideas regarding Bose being overpriced but I believe you pay for the quality, sound sharpness, smaller foot print which is very important for many people, despite of the fact that Definitive is a respectful brand but I found BOSE V35 has all you need for as a home theater all in one package. Bose Lifestyle V35 does it all perfectly. The ultimate, immersive experience in picture and theatrical audio system right in the comfort of my own living room. It took me sometime to set it up

as I am not an expert audiophile. The instructions were clear and concise. I had to contact Customer support and they were superb and very patient. I needed a firm ware update that was just released to complete the setup.

For the size of the speakers they really pump out the sound. I had it at 50% volume and my windows were rattling. I love the fact you can program all your audio and video components to work off the Bose system so you only have one remote for everything. Very easy to program. Just followed the prompts. They even provided a flash drive to download and install any updates. I had to buy nothing to set it up. If you are uncertain about whether to get the V25 or more expensive V35 just go to the Bose store to hear a direct comparison. They will explain that the V35 is better for music, clarity of the instruments, voice, etc. I would agree. As for movie watching, you could go with either. But the big reason that I'm glad I purchased this system is how EASY it was to setup and how the remote automatically learned how to operate the TV, BluRay player, and Cable box. And the speaker are very small and unnoticeable wife likes that feature. Crystal clear sound and my whole family enjoys it including our friends who visit us and they intend to buy there own. I have checked all connections and tried to reset the system with no success. I am now faced with the grim reality of sending the unit back to Bose for repairs. I will have to pay for it since the warranty only lasts one year. Buyer Beware. Discover everything Scribd has to offer, including books and audiobooks from major publishers.
